

6.5 Internal Quality Assurance System

6.5.1 Internal Quality Assurance Cell (IQAC) has contributed significantly for institutionalizing the quality assurance strategies and processes. It reviews teaching learning process, structures & methodologies of operations and learning outcomes at periodic intervals and records the incremental improvement in various activities

Response:

The institution reviews its teaching learning process through regular supervision and conduct of CIA examinations. The students are continuously evaluated through three CIA examinations conducted by the respective departments. The poor performers and irregular students are asked to complete the CIA exams and their performance is evaluated. If their performance is not satisfactory, they are asked to submit special assignments and guidance sessions are conducted for them.

The IQAC also takes initiative in conducting Academic Audit at the end of every academic year to assess the teaching learning process and methodologies. The feedback from students is collected regularly and analysis is also carried out. During the pandemic, it took initiatives in conducting webinars.
